## **LEADERSHIP CHANGE AT CNTA**

# SOUTHEAST SUMMER NUCLEAR INSTITUTE (SSNI)

Twenty-one middle and high school teachers from Georgia and South Carolina took time out of their busy summer schedules to participate in the Southeastern Summer Nuclear Institute July 15th to 17th to promote nuclear education and workforce development in the southeast. The Institute was hosted by Citizens for Nuclear Technology Awareness (CNTA) and was directed to teachers who have an interest in learning or sharing more knowledge about nuclear technology applications. The key goal was to promote student interest in science, technology, engineering, and mathematics (STEM) education and related careers. Other sponsors of SSNI included: American Nuclear Society-SR (ANS-SR), AREVA, Atkins, Georgia Power, Ruth Patrick Science Education Center (RPSEC), SRS Community Reuse Organization (SRSCRO), and USC Aiken.

Teachers perform a shielding exercise using a GM Counter and natural occurring radioactive materials.

Teachers visited Vogtle, Unit 1 Simulator and participated in a training exercise. The teachers also visited the Unit 3 simulator and were impressed by the advanced digital technology.

Jon Guy explains the Chart of Nuclides using the Isotope Discovery Kit.

Sharon Marra, Senior Vice President and Deputy Director of the Savannah River National Laboratory presented the Savannah River Site Waste Management Program to the teachers.

Bob Collins describes the Augusta Technical College Nuclear Program to the teachers.
