CNTA's Up & Atom July Breakfast to Feature SRS Summer Interns

Savannah River Site (SRS) summer interns will be the featured speakers at the Citizens for Nuclear Technology Awareness (CNTA) Up & Atom breakfast on July 23. The Up & Atom breakfasts are sponsored by CNTA to provide nuclear-related information to the organization's members and the community.

Hundreds of college students come from across the country to spend the summer interning in many departments and divisions at SRS. Three interns, one each from Savannah River Mission Completion, Savannah River National Laboratory, and Savannah River Nuclear Solutions, will speak. Dozens of other interns will also be in attendance.

CNTA will also be recognizing our 2025 High School Essay Contest Winners and our 2025 Educator Grant Awardees at this breakfast. The winning students wrote essays about the use of nuclear technology in medicine, energy, or national defense. The grant awardees are all area teachers who submitted projects for STEM education supplies in their classrooms. Information about these programs and the 2025 winners is available at www.cntaware.org.

This breakfast meeting will be held at 7:30 a.m., Newberry Hall, in Aiken. Reservations are required; the cost of the breakfast is \$20 per person.

To make reservations, email office@cntaware.org, or pay online in advance at <https://cntaware.org/events/>.

CNTA is an Aiken-based charitable educational organization dedicated to providing factual information about nuclear topics and educating the public on nuclear issues. For further information, call CNTA at 803-649-3456 or e-mail at cnta@bellsouth.net.
